

## PRIVILEGIO MILANO

Privilegio Milano is a company specialized in the design and sale of luxury Italian linens for home, yacht, private plane, and boutique hotel.

The company was founded on 2015 and managed by Monica Castiglioni, a long-time, experienced interior designer from Milan, where, with her design studio, she had the opportunity to refine her knowledge of fabrics and color combination. Monica's goal is to transform your house into a home by incorporating unique elements, featuring high-quality fabrics and a focus on detail to create a unique and welcoming environment.

Monica believes customized linens and fabrics are like clothing for your home, and Privilegio Milano Linens feature customized elements to meet the specific design needs of select business and individuals. The products are made in Italy by Tuscan craftsmen who have a long history of working with high-quality materials to reflect the creativity and taste for which classic Italy is known.

Privilegio Milano can offer you a wide range of designs and styles from traditional to contemporary. Make them part of everyday life of your house: bed linen, bath towels, table linens, and more.
